In re Application of :
Sano et al. :
Application No. 10/562,811 : ON APPLICATION FOR
Filed: December 29, 2005 : PATENT TERM ADJUSTMENT
Docket No. 1012774-000006 :

This is in response to the REQUEST FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT PURSUANT TO 37 C.F.R. § 1.705(B), filed April 27, 2010. Applicants submit that the correct patent term adjustment to be indicated on the patent is seven hundred nineteen (719) days, not five hundred six (506) days as calculated by the Office as of the mailing of the initial determination of patent term adjustment.

As the instant application for patent term adjustment requests reconsideration of the patent term adjustment (1) as it relates to the Office's failure to issue the patent within 3 years of the filing date and (2) as it relates to the filing of an Information Disclosure Statement after the mailing of the Notice of Allowance, the application for patent term adjustment under 37 CFR 1.705(b) is **DISMISSED as PREMATURE.**

Knowledge of the actual date the patent issues is required to calculate the amount, if any, of additional patent term patentees are entitled to for Office failure to issue the patent within 3 years. See § 1.702(b). This is true even where a request for continued examination (RCE) was filed. The computer will not undertake the § 1.702(b) calculation until the actual date of issuance of the patent has been determined. *Likewise, the computer will not calculate any further Office delay under § 1.702(a)(4) or applicant delay under § 1.704(c)(10) until the actual date of issuance of the patent has been determined.* As such, the Office can not make a determination on the correctness of the patent term adjustment until the patent has issued.

Requesting reconsideration of the patent term adjustment to be indicated on the patent under 37 CFR 1.705(b) based on the initial determination of patent term adjustment and a projected issuance date of the patent or even the filing date of the request for continued examination is premature. Accordingly, it is appropriate to dismiss as premature such a request.

Rather than file an application for patent term adjustment under 37 CFR 1.705(b) contesting the 37 CFR 1.702(b) calculation at the time of the mailing of the notice of allowance, applicants are advised that they may wait until the time of the issuance of the patent and file a request for reconsideration of the patent term adjustment pursuant to 37 CFR 1.705(d). As the USPTO does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent. However, as to all other bases for contesting the initial determination of patent term adjustment received with the notice of allowance, applicants must timely file an application for patent term adjustment prior to the payment of the issue fee¹.

The \$200.00 fee set forth in 37 CFR 1.18(e) for consideration of the application for patent term adjustment under 37 CFR 1.705(b) is being charged to deposit account no. 02-4800.

Any request for reconsideration of the patent term adjustment indicated on the patent must be timely filed within 2 months after issuance pursuant to 37 CFR 1.705(d) and must include payment of the required fee under 37 CFR 1.18(e).

¹ For example, if applicant disputes both the calculation of patent term adjustment under 37 CFR 1.702(a)(1) for Office failure to mail a first Office action or notice of allowance not later than fourteen months after the date on which the application was filed and under 37 CFR 1.702(b) for Office failure to issue a patent within three years of the actual filing date of the application, then applicant must still timely file an application for patent term adjustment prior to the payment of the issue fee to contest the calculation of Office delay in issuing a first Office action or notice of allowance. See 37 CFR 1.705(b) and 35 U.S.C. 154(b)(3)(B). A dispute as to the calculation of the 37 CFR 1.702(a)(1) period raised on request for reconsideration of patent term adjustment under 37 CFR 1.705(d) will be dismissed as untimely filed.

The Office of Data Management has been advised of this decision. This application is being referred to the Office of Data Management for issuance of the patent.
